

ITPartners+ Successfully Completes SOC 2 Audit

Furthering ITPartners+ Commitment to Information Security

Grand Rapids, MI (December 6, 2022) – [ITPartners+](#), a managed services provider specializing in co-managed engagements, today announced its successful completion of its Type 2 SOC 2 audit as of November 9 for the review period of June through September 2022.

The SOC 2 audit was conducted by leading compliance assessor A-LIGN, a technology-enabled security and compliance partner trusted by more than 2,500 global organizations to help mitigate cybersecurity risks.

“This is such a huge milestone and we completed it within our first five years, something that I never thought we would be able to do when just starting out, said Kevin Damghani, CEO of ITPartners+. “I’m so proud of how our team pulled together and put security first so we can have an independent report to reassure our partners that we walk the talk when it comes to security.”

Established by the American Institute of Certified Public Accountants (AICPA), the SOC 2 examination is designed for organizations of any size, regardless of industry and scope, to ensure the personal assets of their potential and existing customers are protected. SOC 2 reports are recognized globally and affirm that a company’s infrastructure, software, people, data, policies, procedures and operations have been formally reviewed.

“A SOC 2 audit is a statement about an organization’s commitment to protecting their information.” said Stephanie Oyler-Rankin, SOC Practice Lead at A-LIGN. “As a trusted third-party assessment firm, A-LIGN independently evaluates client data processes and procedures, governance on internal controls and security posture. ITPartner’s SOC 2 report validates its commitment to data security and protection, as well as compliance with critical standards to mitigate cybersecurity threats.”
