Tech Industry's Most Prestigious List of Managed Service Providers Worldwide

Grand Rapids, MI (June 26, 2023) – ITPartners+ has been named as one of the world's premier managed service providers in the prestigious 2023 Channel Futures MSP 501 rankings.

For the past 17 years, managed service providers around the globe have submitted applications for inclusion on this prestigious and definitive listing. The Channel Futures MSP 501 survey examines organizational performance based on annual sales, recurring revenue, profit margins, revenue mix, growth, innovation, and supported technologies.

MSPs that qualify for the list must pass a rigorous review conducted by the research team and editors of Channel Futures. It ranks applicants using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue and operational efficiency.

"We're incredibly honored to be recognized on the Channel Futures MSP 501 list," said Kevin Damghani, CEO of ITPartners+. "This accolade is a testament to our team's unwavering commitment to delivering the highest level of service, innovation, and technological excellence to our partners. In these unprecedented times, we've redoubled our efforts to support businesses with IT solutions that not only solve their immediate challenges but also prepare them for future opportunities. Our mantra is simple, 'Think Big, Do Great Work, Make It Fun' and this recognition reaffirms that we're on the right path."

"The 2023 Channel Futures MSP 501 winners persevered through challenging times to become the highest-performing and most innovative IT providers in the industry today," said Jeff O'Heir, Channel Futures senior news editor and MSP 501 project manager. "The MSP 501 ranking doesn't award MSPs solely on their size and revenue. It acknowledges the business acumen, best practices and trusted advice they deliver to customers every day. They deserve the honor."
