

ITPartners+ Recognized as Golden Datto Finalist

Grand Rapids, MI (October 17, 2024) ITPartners+, a leading National IT Managed Services Provider, announced today that it has been named a finalist in the Cooper Cares Award category for the Golden Datto Awards, hosted by Kaseya, the leading global provider of AI-powered cybersecurity and IT management software for managed service providers (MSPs) and small to mid-size businesses (SMBs).

The Golden Datto Awards are presented to the best-of-the-best among Kaseya's partner community. These partners demonstrate what it means to be a solid business, a good partner, and an outstanding community member. The 2024 finalists were chosen by Kaseya leadership in six different categories.

ITPartners+'s commitment to "Positively Impact People" shines through in both local and global initiatives. On the global stage, their efforts in Uganda exemplify this dedication. ITPartners+ works with Dr. Betty Udongo at the New Generation Healing & Empowerment Center, supporting young women through education, vocational training, and comprehensive care. This long-term relationship embodies the company's passion for using technology to create lasting, positive change in communities around the world. Dr. Udongo's remarkable journey from growing up in the Idi Amin era conflict to becoming a beacon of hope for women's empowerment resonates deeply with ITPartners+'s mission to make a meaningful difference in people's lives. These long-term relationships embody the ITPartners+ passion for using technology to create lasting, positive change in communities around the world.

"Finalists for the Golden Datto's have demonstrated exceptional business performance as well as a dedication to the communities they live and operate in," said Fred Voccola, Kaseya CEO. "As MSPs that leverage Kaseya's AI-powered tools, these are some of the best MSPs in the channel. We are pleased to showcase the outstanding work of our finalists and look forward to seeing the winners selected at DattoCon later this month."

"We are deeply honored to be nominated for the Cooper Cares Award," said Kevin Damghani, CEO of ITPartners+. "To 'Positively Impact People' is woven into the very fabric of who we are, and we're grateful to be part of an industry that values community impact as much as innovation. This nomination reflects our ongoing commitment and reinforces our belief that IT can truly change lives for the better."
